Stadium Cushions with ads

Free Fundraising Idea!! - Get local businesses to sponsor printing cushions by offering ads. Put your groups name on one side and the ads on the other. They get the business and you make the money! sample ideas here

The simpler you make the layout - the easier it is for everyone. Business supporters will just need a simple ad to be able to justify the cost. Just decide how many you will sell - you can sell them for 30\$ - 50\$ each and pay for hundreds of cushions BEFORE your actual sale!!

For the **Bench Cushion** - the print area is 7" x 10". It easily supports 10 ads. We have templates below if it helps, that divides the cushion areas into sections that you can work with - add text and send it to us.

For the **14" square Cushions** - the print area is 12" x 12". It easily supports 15 ads. We have templates below if it helps, that divides the cushion areas into sections that you can work with - add text and send it to us.

We do not suggest taking business cards or pictures - they are often too small to print well on cushions - also - a good idea is keeping the fonts very basic - it makes everything flow much easier.

Bench Sized Stadium Cushions

14" x 10"

OUR BEST VALUE AND THE MOST POPULAR CHOICE!!

Imprint Area: 10" x 7"

Why waste extra cushion that hangs over the edge of a standard bench seat? Our stadium seats are designed to fit the bench while still being 1 1/2" thick & comfortable. They cost less, ships cheaper and are easier for folks to carry to games than traditional square cushions.

Stadium Cushion Vinyl Colors

As a rule of thumb when printing any surfaces, darker colors should be printed on lighter colors rather than light on dark to provide better coverage. Some colors such as yellow do not cover dark blues well. Think of it as if you had a dark painted room in your home, you would need to paint a white undercoat - possibly a few times prior to painting yellow over it. Remember we never charge extra for having one vinyl color on the bottom and a second on top - so if you need a navy blue and yellow for example- put the Navy vinyl on the seat cushion bottom - that's where it will get dirty anyway. Then use yellow on the top and print in Navy on the top- it will look sharp and stay clean!! If you have questions about a color combination - just call - that's what we are here for!
